Professional Summary

Aspiring Technology Consultant with a strong foundation in full-stack development (React.js, Spring Boot) and a proven record of delivering impactful projects. Known for combining technical expertise with strong communication, teamwork, and problem-solving skills. Passionate about leveraging technology to solve real-world business challenges and deliver client-focused solutions.

Education

KLEF Deemed to be University

July 2023 – May 2027

B.Tech in Computer Science Engineering

CGPA: 9.49/10

Relevant Coursework: Operating Systems, Data Structures, Computer Networking, Database Management Systems, Design and Analysis of Algorithms

Technical Skills

Languages: C, Java, JavaScript (ES6), Python, Bash

Frameworks/Libraries: Next.js, React.js, Express.js, Spring Boot, HTML, CSS

Databases: MySQL, PostgreSQL, MongoDB

Tools: Git, GitHub, Postman, Docker

Projects

Arbeit – Job Management System

- Developed a full-stack job management platform enabling companies to post vacancies and candidates to apply for jobs.
- Implemented user authentication, job posting, and application tracking with secure role-based access.
- Designed responsive UI and optimized API calls for efficient data handling and improved user experience.
- **Tech Stack:** Next.js, Express.js, MongoDB

Budget-Buddy – Personal Finance Tracker

- Built a personal finance tracking application to manage income, expenses, and savings in an intuitive dashboard.
- Implemented state management using Context API to handle real-time financial data updates across components.
- Designed interactive UI components and visual summaries to help users monitor spending patterns effectively.
- **Tech Stack:** React.js, Context API, CSS

Car Rental System

- Developed a full-stack car rental application allowing users to browse available cars, book rentals, and manage reservations.
- Built RESTful APIs using Spring Boot and integrated MySQL for secure data storage and efficient backend operations.
- Implemented user authentication, booking management, and responsive UI for smooth rental workflow.
- **Tech Stack:** React.js, Spring Boot, MySQL

Skills & Competitive Programming

- **Problem-Solving:** Strong analytical skills in Data Structures and Algorithms.
- **Competitive Programming:** Active on LeetCode, CodeChef, and HackerRank.
- **Collaboration:** Experienced in Agile workflows and cross-functional teamwork.
- **Leadership:** Adaptable, initiative-driven, and capable of leading technical projects.
